

## A REPORT FROM THE GRASSY KNOLL

July 16, 2011

This report may be a little abbreviated due to the fact that Moon Dance and High Card Kay are 'out of pocket' for a few days. They did however have everything in order for another Long Range shoot. When I arrived they already had a shade tent up the tables and gun racks out and everything was ready. Some of our regular shooters had to work, (that nasty four letter word), or were otherwise occupied. However we had a good group and they were ready to shoot.

After the sighting shoots were all fired and the scoring shots were tallied we found we had a tie for first place in the Big Bore Single Shot category between Moon Dance Kid and Deacon Adams each with four hits. They agreed to break the tie by shooting the 10inch disc at two hundred yards. Moon Dance shot first and with his first shot put a round almost dead center on the disc. His second shot was just a couple of inches lower. With the pressure on Deacon Adams stepped up and with his first shot hit the target about where Moon Dance's second round had impacted. Now we were down to one more shot. When Deacon Adams second shot just barely missed the target going high the score was settled and Moon Dance Kid was the winner. We also had a tie for third in the category but elected not to shoot it out. Actually, High Card Kay, Riley Roy and Ozark Outlaw had three hits each, which put High Card Kay as the ladies winner and the other two tied.

Big Bore Lever also found Moon Dance the winner with five hits and High Card Kay the Ladies winner with four solid hits. This category also found three tied for third with three hits each.

Pistol Cal Rifle winner was Riley Roy with four hits while Deacon Adams was second.

After the formal shooting had finished we had some fun shooting at the 10inch disc at 200 yards and shooting the rams at 200 yards with our pistol caliber rifles, Yep we scored a few hits. Perhaps a 200-yard pistol caliber category will show up?

The Bison are still pretty well scattered but they should start to bunch up this fall and by November perhaps the time will come for a hunt.
